

1. September 25, 2024 Appointment Management Release Notes

1.1. Feature Updates

1.1.1. Appointment Manager APIs are now available to users in the project44 Developer Portal

Users Impacted: All Appointment Management users

Update Summary: View and use the external Appointment Manager APIs in [project44's Developer Portal](#).

Supporting Documentation:

- *Coming soon*

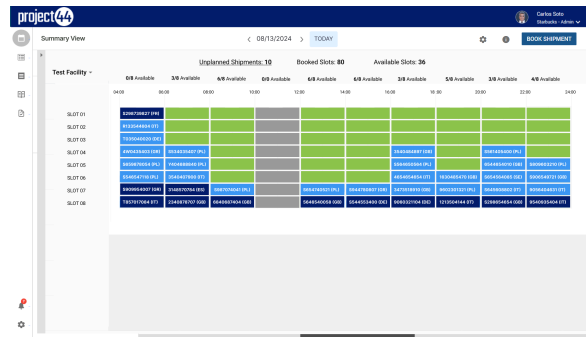

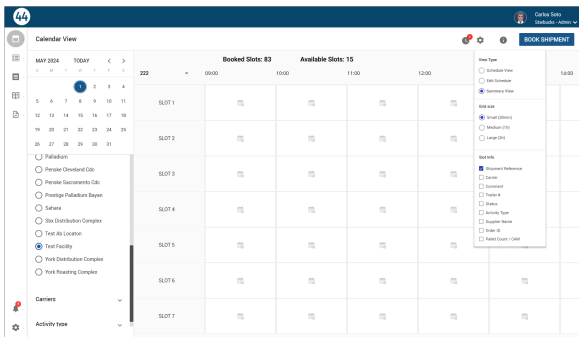

1.1.2. Experience the enhanced Calendar View

Users Impacted: All Appointment Management users

Update Summary: The Appointment Manager Calendar View has been updated to show all slot booking windows in one screen. A **Summary View** is available under **View Type** in the **Settings Menu**.

Supporting Documentation:

- [About Appointment Manager](#)

1.1.3. Carriers are unassigned from canceled shipments

Users Impacted: Appointment Management users, Carriers

Update Summary: Any assigned carriers are removed from shipments that are canceled.

Supporting Documentation:

- [Cancel a Booking in Appointment Manager](#)

1.2. Bug Fixes

- **Resolved Issue:** Calendar View not loading when first slot unavailable
