

Benefits of Joining the project44 Carrier Network

For more information, or to start the integration process, please contact:

carriers@project44.com

project44 is digitizing the way carriers, shippers, and 3PLs work together to power a real-time, transparent, and optimized shipping experience. More than 230K carriers have already joined project44's network and are reaping the rewards—like reducing check calls by up to 80%, winning repeat business and expanding their customer base.

Why Join the project44 Network?

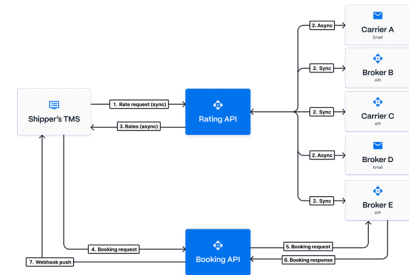

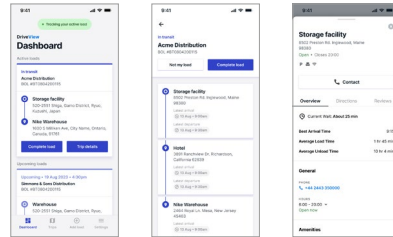

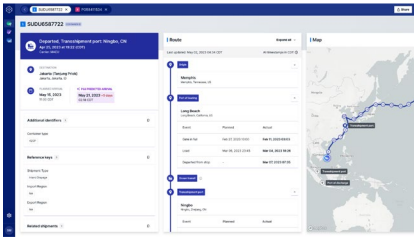

- ✔ **Reduce dwell time** since visibility helps customers better prepare for arrival
- ✔ **Collect fees** when dwell does happen with historical data proving wait times
- ✔ **Save on customer service** when customers can track their shipments in real time instead of calling you for updates
- ✔ **Gain an advantage** among shippers and LSPs that value visibility when you're recognized as a Preferred Carrier
- ✔ **Secure profitable new business** with top global shippers and LSPs on the project44 platform

Tracking Shipments, Not Carriers

You control what you share, who you share it with, and when you start and stop sharing. You can be confident that your data is safe since we're GDPR & CCPA compliant, SOC II verified, and ISO 27001 certified.

Powerful Carrier-Focused Products

Movement by project44™

Access the same shipment details and analytics your customers see for next-level transparency and problem-solving.

- Connect your telematics account and manage relationships with shippers, brokers, and subcontractors
- Filter and save shipment lists to segment information based on what matters most to you
- View relationships between shipments to get answers faster
- Set up notifications to learn earlier when a shipment is not going according to plan
- Monitor analytics to get ahead of issues and improve decision making
- Identify and fix tracking issues to maintain visibility for customers

DriveView™

Our mobile app is a fast and easy way to give customers the visibility they need, when they need it.

- Drivers can initiate tracking for loads moved with project44 customers in moments with only a shipment ID
- Access critical information on docks in North America, minimizing surprises on the road

Rating & Booking

Tap into project44's deep network of shippers and 3PL customers to increase revenue and secure more profitable business.

- Manage rate and tender/booking requests either through API, EDI or via email from shippers in project44's network
- Tap into over \$41 billion in shipper freight spend in the project44 network
- Centralize and streamline workflows and increase the amount of loads a rep can manage each day

Simple & Fast Self-Service Carrier Onboarding

Join the p44 Network in as little as 5 minutes in 3 simple steps

1. Create an Account

If you received an invite from a customer, click the link in the email. Otherwise, go to nmc-na12.voc.project44.com and follow the prompts to create an account.

2. Add Tracking

Login and add your API or telematics credentials to initiate shipment tracking. Or download the DriveView mobile app to securely track shipments from your phone.

3. Go

You're ready to share shipment location with your customers and enjoy the benefits of real time visibility.

project44 is the world's leading Advanced Visibility Platform for shippers and third-party logistics firms. project44 connects, automates and provides visibility into key transportation processes to accelerate insights and shorten the time it takes to turn those insights into actions.
